Our Adventures

Outdoor

Our events take place outdoors in interesting neighborhoods. Teams navigate their way through their adventure route to solve a variety of original, entertaining, and challenging conundrums. Our adventure routes and conundrums don't just evolve with each year, they evolve with each event; each route is specifically tailored to clients' starting and ending locations, making each Conundrum adventure a truly unique experience.

Venue Based

Your team will explore the galleries of the Royal Ontario Museum, Art Gallery of Ontario, Ontario Science Centre or the Bata Shoe museum. Not only will your team get to solve conundrums in a perfect climate, but they'll get to explore these venues and their enlightening exhibits in a unique and entertaining way.

In-Room

Want to host your event at your office, or at a location not covered by our other adventures? Our in-room adventures are a great choice when logistics don't allow for getting out of the office or your conference location.

Our goal for each and every Conundrum Adventure is to provide an exceptional event that will leave participants talking and benefiting from their shared experience long after the event has finished. But what exactly is a conundrum?

Hour of Power +

Program Duration | 90 Minutes

Participants | 50 – 400

About the Program

This program educates attendees on energy poverty and connects them to communities via a hands-on solar light build and letter writing activity.

How it works

Aligned with the [United Nations Sustainable Development Goals](#), this highly engaging hands-on program includes a compelling presentation, assembly of solar lights by participants that connects them with a child living in energy poverty, and a letter writing activity that is packaged with the light.

At the end of the session, the solar lights are returned to SolarBuddy for quality assurance before embarking on the journey to a distribution country thanks to our NGO Partners.
